- Knowledge that helps to visualize a future without AIDS

"Women's economic autonomy" through our Scholarship Program. This scholarship enables each teenage orphan girl to complete at least a secondary, general or technical education that will lead to financial and economic autonomy, greatly reducing the risk of being infected with HIV through sexual abuse and violence.

L'enfance est le meilleur moment pour apprendre les comportements hygiéniques et sociaux. Les enfants sont, et les parents, et les enseignants de demain. Ce qu'ils apprennent et appliquent aujourd'hui aura un impact énorme sur la santé physique et mentale du future.

Par ailleurs, les enfants passent beaucoup plus de temps ensemble. Ils s'admirent, s'imitent et s'écoutent. Lorsque les enfants/jeunes deviennent des participants actifs au processus de sensibilisation et de promotion de la santé, leur contribution a une portée spéciale. Ils deviennent des agents du changement non seulement auprès de leurs camarades, leurs familles mais de la communauté en général. Pour confirmer notre raisonnement ci-dessus, nous partageons avec vous la décision prise par les filles d'AAA (Journée Internationale de la Jeune Fille -2017) de se ranger toujours du côté de la solution :

Habits for successful people !

"The biggest challenge in our country Cameroon today is the risk of a SPLIT and AAA girls are determined to be part of the SOLUTION. They collectively and individually decided to adopt - till they die - daily behaviors that promote peaceful/respectful/human interactions. We recorded few of them in English or French as follows: a) *I will be the one to greet my*

students when I enter the classroom instead of waiting for them to greet me; b) I will listen to other people's opinions calmly, even when we do not agree; c) Je tâcherai aussi de trouver de bonnes choses sur la vie au Cameroun et pas seulement ce qui va mal; d) I will make compliments to people when they do well or look smart; e) I will greet people I meet on my way with an encouraging smile; f) Désormais je parlerai doucement et gentiment à tout le monde; g) I will speak in French or English or in local languages to the patients I receive at the hospital and treat them with respect; h) Bonjour, Merci, S'il te plait, Excuse-moi feront désormais partie de mon interaction avec les autres!"
