

Dear Girls of AAA, Bravo! Once again, you put your minds and hearts together and came up with ways you can help your country through this difficult time. You do not sit back and expect others to find solutions. You lead by example. I especially commend your vow to listen patiently to people even if you disagree with them. This is one of the most important traits anyone anywhere in the world could ever have.

I am so proud of your determination to make a positive impact and bring people together in Cameroon. You are really amazing!

My love to all,

Anne
