

Reactions to December 2019/January 2020 AAA eNewsbrief

Many thanks as always for forwarding AAA's informative eNews. The December/January 2020 Brief is especially significant as it emphasizes the admirable efforts made by AAA for as well as by the students as they navigate a very sensitive juncture in their lives. It is gratifying to know that the AAA End Year Event, 'Getting out of Vulnerability, My own Responsibility', edified and prepared these youth for the challenges they face.

Indeed, this new decade demands that we all 'step up' to a higher level of world solutions and the formation of expanded social structures that serve the globe's present and future goals. Truly, 'Problems Exist Only Because They Can Be Solved', and AAA works untiringly toward finding the answers!

I passed around your joyous New Year greetings and generously-gifted 2020 AAA Memo to our members at our Christmas gathering on December 20th, and will share the Brief at the New Year's meeting on the 24th (gladly, as it happens, International Day of Education). We all wish you and your crew, and the individuals you so selflessly serve, a very promising new decade!

Melanie and members,
