Paraphrasing the AAA eNews of July 2019, we concluded on our desire to be part of a global collective intelligence group/ network. With the objective of achieving the UN Sustainable Development Goals ( UN—SDGs) , this network of HUMAN INTERACTION must value local inputs and perspectives. The present eNews is therefore focusing on Positive Stories from around the world that support our determination to face COVID-19 with a collective strength and determination to BE PART OF THE SOLUTION, NOT VICTIMS:

- **A Cameroonian Dad** unhappily decides to walk 7 kilometers per day to his job as a way to avoid crowded mass transportations with un-protected passengers. After a week, he feels stronger, happier and decides that walking to his work will become his new transportation mode, **not only to fight poverty, but to stay healthy**. Meanwhile, coming back home and finding his children glued to the TV became the next challenge. He decided, that his walk back home would be now extended by 30 minutes to dance with his children before a well deserved bath... The result is that his children have transformed their home in a dancing gym, with more laughter than angry frustrates words!
- **The Haitian Moto Bikers** battle against COVID 19 by wearing Masks and encouraging their clients to do the same - **See pictures below**.
- AAA's Board Members: **Aunty Laraine and Aunty Herta** offer respectively one Water Well and two Blocks of Toilets to rural schools on 6 March 2020, **the very day COVID- 19 was declared in Cameroon** - to support AAA's commitment on **"NO MORE DISEASES CAUSED BY DIRTY HANDS"**. Millions thanks dear aunties!
- **Dr Montio Kaba Morgan** , President of Cameroon Doctors in the UK. An ear, nose and throat consultant in Southeast of England is sharing her recovery experience. **Read more:** <https://www.bbc.co.uk/sounds/play/p08bmt5z>

Be well and safe around the world !

Ruth Bamela Engo, **President AAA**
