

Reactions from April 2020 AAA eNewsbrief

Melanie and members, SI Tokyo-Shinjuku

You always lift me up, and that is what you also do on a regular basis for SI Tokyo-Shinjuku, AAA, Cameroon, Africa and the world!! All I can say is a big 'thank you' for being my and our beautiful sister!!

In spite of this awful scourge that the world is fighting I feel that we are drawing closer together...behind the statistics that are generated daily we see the people who are suffering, helping, serving, 'reinventing', as you say, their lives to create a new way to live, because life is such a precious gift. Bless what you are doing to preserve and elevate it, Ruth, as you show the necessity of increasing kindness, compassion and care.

In Japan we are following the guidance of our Prime Minister and prefectural governors; each country around the globe is truly being shown what leadership entails. I will certainly convey your greetings to our members, and hope we will be convening soon. Living with daily uncertainty has been a challenge that has made faith and conviction even more crucial for everyone.

I hope your webmaster in India is doing OK; that country also is dealing with many challenges as it tries to protect its citizens. You greatly honor me in your appreciation and in providing a channel to express our unity of endeavor!!

Keep well, safe and strong!! I'll be thinking of and praying for you and Africa!!

Melanie
