

## Reactions from June 2020 \_ Special Issue AAA eNewsbrief

### 1- Herta Kaschitz-Wüstenhagen

Thank you for this so very timely newsbrief, containing a very timely and important message!

Herta Kaschitz-Wüstenhagen

### 2- Melanie and members, SI Tokyo-Shinjuku

Many thanks for the Special Issue AAA e-News Brief. It's always good to hear from you—whatever is being done by, through and with AAA is inspiring!

Happy Day of the African Child! It's wonderful to know that since 1991, June 16th has been set aside to celebrate the children of your continent—their health, safety and growth is a gift to the world!

We are also continually gratified to realize what an important role clean water plays in the health and development of not only every single child, but the entire community and the world. Especially in these days of global health challenge and long-overdue attention to social justice, clean water makes a crucial difference. As schools start to reopen in many areas, we pray young people attend safely and begin to integrate what has been happening in these few short months.

Thank you, for the opportunity to contribute to the availability of 'Quantity and Quality of Water'—because of each drop, children will be able to lead forth from their health toward their futures and the true sustainable development of their communities.

Best wishes always,

Melanie and members,

SI Tokyo-Shinjuku
