

Reaction from August AAA eNewsbrief 2020

Melanie and members, SI Tokyo-Shinjuku

Thank you so very much for this extra-special AAA eNews Brief for August 2020 with its celebration of International Youth Month! It is extremely uplifting to celebrate the youth of the world, who through their vitality and desire to make a difference bring their potential to life. It is even more inspiring to see the young women representing the education and health given them through the efforts of AAA creatively and consciously making a path for themselves that will make ripples and then waves in the lives and places they touch—thank you!

We at SI Tokyo-Shinjuku are happy to know that you are well; we are fine also, fortunate to have gathered last week, thinking of you. The world continues to be everywhere affected, and we and so many are in constant adjustment. Soon Japan will have a new Prime Minister; present Prime Minister Abe also has had to deal with changing physical and social circumstances.

All the best to you always
Melanie and members,
SI Tokyo-Shinjuku
