AFRICAN ACTION ON AIDS (AAA) 30 years Later

Your contributions keep us going! Please send a tax-exempt check payable to one of African Action on AIDS' addresses below

African Action on AIDS is a non-profit organization working with Africa's youth whose lives have been affected by AIDS or Covid-19. We teach them what they need to stay alive and encourage them to share this knowledge with their peers within their communities.

AAA, who's been working since 1991, has a consultative status with the United Nations.

Our biggest take away of the past 30 years is that medicine, in whichever form, cannot be used to cure people in an environment that does not prioritize preventive measures such as washing hands, drinking clean water, and hygiene in general.

AAA teaches us to look at our bodies as a unit. This way, when practicing preventive health, it permits the body to defend itself as a whole rather than fight each disease individually.

Continuing in the spirit of knowledge and sharing, we invite you to join us in celebrating 30 years of milestones.
