2- Dr. Mag. Herta P. Kaschitz – Wuestenhagen, AAA Representative in Vienna

Thank you, dear Ruth, for this very important Newsletter. It contains an important advice how the sometimes deadly trip across the Mediterranean could be avoided and prevented...

Thank you for your great work!

Be well and safe,

Herta

3- Michele Nadine Essam, International Advisory Board member, AAA Diaspora Representative

Dear Mama Ruth,

Thank you for the excellent work. Consistent work.

I am always happy to receive and read AAA eNews.

Michele

Dear Ruth,

Thank you for a very special eNews Brief this month honoring the Day of the African Child, celebrated on June 16th since 1991, which recalls the tragic Soweto Uprising on that day in 1976 and the brave children involved.

Truly, this day of memorial is a great impetus to increase the achievement and implementation of the last 30 years, and to move forward to the goals of 'Agenda 2040 fit for Children'. As you say, just 'one positive act a year in all primary schools' toward health, education, pride in self and knowledge of each African country could transform not only the continent but the entire world. As these children are supported and work together, they echo the human team of which are all a part. We at SI Tokyo-Shinjuku are proud to be a part of AAA's team and its efforts to constantly better the future for young people. The generations and history thank you, Ruth!

With best wishes

Melanie and members, SI Tokyo->
