

Reactions from AAA eNewsbrief 8 March 2022 - International Women's Day

1- Melanie and members, SI Tokyo-Shinjuku

Dear Ruth,

A very happy and special International Women's Day to all the women and men of the world!! Indeed, with each person's unique nature, gifts and contributions combined, a dynamic equality, freedom and energy within each life and community are created.

Thank you so much for the clear and inspired descriptions of equalized are and solidarity in this March AAA eNewsbrief. As Einstein stated, each person is 'a genius', not bringing sameness but uniqueness, and, as you say, the members of each society should unite their talents and potential to exemplify what is best about it, 'pooling individual strengths to boost up the whole'.

I was moved by your mention and photos of some great women who have contributed to our understanding of what women can be and achieve in this world, and I hope you will count yourself among them. Thank you, Ruth—keep well and safe always.

Never have I seen the concept of "equality" explained better than in this NewsBrief. Congratulations, my dearest Ruth!!

4- Anne Gregory, AAA Board member and Representative at UN Women

Thank you for the inspirational news letter celebrating International Women's Day and diving into the meaning of EQUALITY!

I share this photo from March 8, 2018 during the AAA meeting. To this day, I am impressed by the thoughtful presentations and discussions that followed. Clearly, these young people — girls and now boys, too — are learning firsthand about what equality means.

Bravo!
