

Am I Doing Something to Keep My Corner of the World Clean and Healthy?

Your contributions keep us going! Please send a tax-exempt check payable to one of African Action on AIDS' addresses below

When your actions are guided by the principle that no one is watching to prove you did it, you already know you are guilty. Please stop !(see pictures and consult: *Le Jour* of 05/13, 13/08, 28/08 2024) - <http://www.lejour.cm>

For communities like ours, where tontines/community savings are often used for the burials of family members and friends, we suggest that these funds be divided into two parts:

- **Death Prevention:** Through preventive actions within our communities to eliminate hazards that attract pests, bring diseases, and lead to premature deaths.
- **Dignified Burials:** Ensuring that burials are conducted with dignity.

To the question: How can we encourage people to stop urinating and littering in public spaces?

The answer is: If you want to be part of the next generation of healthy humans and contribute to a healthy future for all, then adopt responsible behaviors! Beyond the negative impact of individual acts, we definitely need strong urban planning solutions to prevent the consequences of individual laxity.

Finally, to the AAA's constant question: **Am I doing something to be part of the solution? We should all respond: Yes! By keeping my part of the world clean, healthy, and safe for all.**

Ruth Bamela Engo, President AAA
