

African Action on AIDS

Happy International Women's Day - 2024

Your contributions keep us going! Please send a tax-exempt check payable to one of African Action on AIDS' addresses below

As highlighted by "Bantu Cosmology," the Supreme Being created Water and Fire as the essence of life. Unfortunately, in 2024, the reality in many parts of the world, particularly in Africa, is a lack of both the quantity and quality of water.

On this International Women's Day 2024, AAA wishes all women a safe and happy day. We also hope that each woman will have access to enough water to lead a decent and clean life with their families.

We call for a 10-year focus on providing clean and sufficient water to all,

as an important goal that aligns with the values of International Women's Day.

Happy International Women's Day - 2024

Ruth Bamela Engo,
President AAA
