

Reactions from AAA eNewsbrief June 2024

Dear Ruth,

Thank you very much for bringing to our attention the Day of the African Child 2024 (June 18th) and the passionate outcry ('cri de coeur') of 13-year-old Elisabeth Charlotte BWAME and the youth of Cameroon who call out for education. It is indeed a deep hurt for all of us when children, especially girls, are denied the right to develop their potential and live expanded lives. Elisabeth's advocacy is a global cry for all of us!

Ruth, you also have indeed been a constant advocate and tireless peacemaker as you and your crew ensure health and education for future generations by joining communities together and giving them the tools to grow. Thank you for everything, we are so proud!

Melanie and members,
SI Tokyo-Shinjuku
